Alice Englert stars as a witch torn between the forces of good and evil in the upcoming fantasy film *Beautiful Creatures*, but in real life, she's so down-to-earth. The actress attended the Sundance Film Festival to promote her latest movie *In Fear*, but she wasn't in the mood for a bold red lip or attention-grabbing metallic eyeshadow. "She told me she doesn't mind looking a bit casual, and I love that look of slightly slept-in eye makeup on young fresh face," explains celebrity makeup artist Nick Barose.

One of the main things to focus on was the cold. Sundance takes place in ultra-chilly Utah, so providing Alice's skin with the necessary levels of moisture was key. Barose shares his tricks for keeping her skin soft and her makeup glowing despite the chilly winter weather.
