## The Perfect Neutral-Rosy Lip Color? Mais Oui! It's from Votre Vu!

Looking for a rosy lip hue that's shiny, subtle yet gorgeous? Say "Bonjour!" to Votre Vu's Champs éLipsée Lip Crayon.

-PJ Gach

Finding a good lip color that works with neutral and smokey eyes can be hard. Votre vu has made the search easy with their new **Votre Vu Champs éLipsée Lip Crayon in Spark** (a mid-tone rose) \$24. The lip pencil swipes on quickly, leaving a shine and oodles of color. Super-hydrating, the retractable pencil never needs sharpening. It can be tossed in a makeup bag or your back pocket.

Because the formula's so hydrating, you may re-think the idea of a lip balm this winter. It's chock full of good things like Candelilla wax (made from veggies) and Ozokerite (made from minerals). Both are strong moisturizers and super gentle on your lips.

So nice to find a product that loves your lips almost as much as you do.
