While we love our American buys, there's just something about what the French do with their beauty products and regimes. Seriously, has anyone mastered #wokeuplikethis hair better than the gamine femmes on the streets of Paris? They've got the market cornered on beautiful skin, red lipstick, and all-around gorgeousness.

So, in order to try to inject a bit of French fabulousness into our everyday lives, we reach for our favorite beauty products from the land of Lauderée. From perfume to eyeliner to toner, click through to see our editor's top Parisian picks. You'll be scoring that French model-off-duty look in no time.

This eyeliner is a makeup unicorn. Even though it's a pencil, it's as soft as gel, and glides on easily and fluidly. You can smudge it as much as you want. And, once it sets, it's not going anywhere. Soft, easy to smudge, *and* budge-proof? The French really do know what they're doing.

Votre Vu Le Joli Crayon, \$16.10, available at [Votre Vu](#).
