Shine like a superhero! When Wonder Woman star **Gal Gadot** stepped out to speak at an event at New York City's 92nd Street Y on October 1 she stunned in modern no makeup-makeup — including perfect-for-Fall earth-toned shades — but what really stood out was her creamy, flawless complexion. To sculpt definition in the face, **Anastasia's contour palette** was used and **Matin** hit the high points of Gadot's face with Nars' new Man Ray gold highlighter. For the body, **Votre Vu's Silk Stockings** was applied everywhere.
